12 May

Increasingly clear in the morning, with local intermittent showers in the afternoon. Moderate northerly winds. Considerable drop in temperature, with minimum morning temperature of about 5 degrees centigrade in the interior.

13 May

Cloudy with rain in the Primorje, spreading during the day to the central and southern regions, then to the southeast. Light to moderate cloudiness in northwestern section, variable cloudiness in other sections. Variable winds; moderate south wind along the coast. Gradual rise in temperature.

15 May

Variable cloudiness with occasional rain, particularly in northwestern sections. Variable winds. No change in temperature.

16 May

Considerable cloudiness with rain in southern sections; variable cloudiness in other sections. Variable light winds. No significant change in temperature.

17 May

Extremely variable cloudiness with occasional rain. Variable winds. No change in temperature.

20 May

Moderate to considerable cloudiness with light occasional rain in northwestern section and along the coast; slightly cloudy in other sections. Moderate southerly winds along the coast; light southerly winds in other sections. Temperature rising.

21 May

Light to moderate cloudiness; considerably cloudy in the southern Primorje, Macedonia, and Serbia. Local rain in the south and the mountain areas. Moderate winds. No change in temperature.

22 May

Slightly cloudy, except for northwestern section, where it will be cloudy with local light rain. Light variable winds. Temperature rising.

23 May

Local cloudiness in northwestern section; light to moderate cloudiness and warm weather in other sections. Light winds.

24 May

Light to moderate cloudiness. Light winds. Temperature continues rising.

27 May

Cloudy with rain in western section; variable cloudiness in other sections. Light to moderate southerly winds, changing to westerly in western sections. Temperature will fall slightly in Slovenia and Croatia.
